ERRATA SHEET

THE ANNUAL STATISTICAL REVIEW 2000

Please note the following changes in the 2000 Annual Statistical Review:

Table 3: Population and Vital Statistics, County-level, page 17.

Data on *intra-provincial migration,* previously omitted from the table, have now been included.

Table 17: Unemployment/Employment Insurance Statistics, page 27.

Data on the number of beneficiaries of Employment Insurance from January 1997 to April 2000 are subject to revision as Statistics Canada and HRDC are making changes to account for under-estimations, and conducting a historical revision of the data series. **The *average monthly number of beneficiaries* reported for 2000 was based on the first four months of data, and has been removed from Table 17.**

Table 56: Estimates of Primary Forest Production, page 56.

Note 3 should read: *Delivered value of primary forest product production (2000) = $42.2 million.*

Table 92: Provincial Government Employment, page 79.

The following footnote has been added: *The series is subject to a major discontinuity caused by Health Reform 1993/94.*

A corrected/updated version of the 2000 Annual Statistical Review will be posted on the Government website at:

www.gov.pe.ca/infopei/Statistics/index.php3.

I regret any inconvenience this may have caused our readers.
